SUMMARY

Data Analyst with 3+ years of hands-on experience in SQL-based data analysis, reporting, and dashboard development. Strong expertise in working with large transactional and ERP datasets, performing data extraction, data cleaning, validation, and exploratory data analysis (EDA). Proficient in SQL Server, Python (Pandas), Excel, and Power BI, delivering accurate dashboards, KPIs, and actionable business insights to support data-driven decision-making.

TECHNICAL SKILLS

- Databases: SQL Server, MySQL
- Data Analysis: SQL Queries, Joins, CTEs, Subqueries, Data Cleaning, Data Validation, EDA
- Visualization & Reporting: Power BI (Measures, Dashboards), Excel (Pivot Tables, Charts)
- Programming: Python (Pandas, NumPy, Matplotlib)
- Business Analysis: Reporting, Trend Analysis, KPI Tracking, Insights Generation
- Tools: Jupyter Notebook, VS Code, Git, GitHub

PROFESSIONAL EXPERIENCE

Srivastava Infotech Software Solutions Pvt. Ltd

Aug 2022 - Present

- Analyzed large-scale transactional and ERP data using SQL Server to support operational and management reporting.
- Developed and optimized complex SQL queries, improving report performance by 30%.
- Performed data extraction, data cleaning, and validation from production databases to ensure high data accuracy.
- Created structured datasets and reports for trend analysis, KPI tracking, and business insights.
- Supported stakeholders with ad-hoc analysis and dashboards, enabling data-driven decision-making.
- Collaborated with cross-functional teams to deliver reliable reports and analytics solutions.

PROJECT

Luxury Housing Sales Analysis – Bengaluru

- Analyzed datasets with 100,000+ records using Python and SQL.
- Performed data cleaning and exploratory analysis to identify pricing and sales trends.
- Designed Power BI dashboards to visualize KPIs and management-level insights.
- Cleaned and analyzed large datasets using Python and SQL.
- Performed exploratory data analysis to identify sales and pricing trends.
- Built interactive Power BI dashboards for management insights.
- Tools: Python, Pandas, SQL, Power BI

PhonePe Data Analysis Dashboard

- Cleaned and processed large transaction datasets using Python (Pandas) and SQL.
- Conducted exploratory data analysis (EDA) to identify transaction trends, user growth, and regional performance.
- Built interactive Power BI dashboards for state-wise and category-wise analysis.
- Delivered insights to support performance monitoring and business decisions.
- Tools: Python, Pandas, SQL, Power BI

YouTube Revenue Prediction

- Prepared datasets and performed data cleaning using Python.
- Analyzed revenue trends and growth patterns using SQL and dashboards.
- Created visual reports to track performance metrics and trends.
- Tools: Python, Pandas, Scikit-learn, Streamlit

Education

Diploma in Computer Science

Prasad Group of Institutions, 2018 – 2021

Intermediate (Class 12)

Swami Dayanand SIC, Azamgarh, 2017 – 2018

High School (Class 10)

Mission English School, 2013 – 2014
